

The meat alternative that gives everyone just what they want

Our game-changing platform delivers plant-based offerings that are truly tasty, seriously healthy, and completely customized to individual preferences. Powered by our proprietary "Robot Chef," SavorEat brings unprecedented quality and personalization to an exploding market.

A Juicy Situation

The alternative meat industry is experiencing extraordinary growth. In 2020, the industry generated \$3.1 billion in investments, more than any year to date,¹ and it's poised to expand by nearly 40 percent, to \$140 billion, within the next decade.² Meanwhile, 80 percent of consumers today are more likely to buy a product that can be personalized.³

¹ GFI, ² Barclays, ³ Epsilon

Right now, entrants into this market face key challenges:

FLAVOR & TEXTURE

Products must taste and feel like "real" meat

HEALTH & SUSTAINABILITY

Products should emphasize food-safety and eco-friendliness

VARIETY & POSSIBILITY

Products meet consumers' unique desires/demands

A Difference To Savor

SavorEat's extraordinary team has upgraded what's possible in the meat alternative market. Our unique digital manufacturing technology creates offerings that provide consumers with across-the-board improvement:

GREAT TO EAT

Flavors, textures, and total eating experience that rival meat

HEALTHY FOR YOU AND THE PLANET

Reduction of animal-based nutrition benefits bodies and the environment

SEPARATED AND AUTOMATED

Our fully automated IOT system is isolated from the kitchen environment (no contaminants)

COMPLETELY CUSTOMIZED

Assorted individual options, with preferences recorded

IDEAL FOR FOOD SERVICE OUTLETS

The "easy operation" system is always convenient and adaptable

Expanding Opportunities

Areas for growing the brand abound:

MORE OFFERINGS

Including pork, chicken, and seafood (now in development)

MORE MARKETS

From local to global, from restaurants to institutional kitchens

MORE SERVICES

Collecting/analyzing insights on consumer preferences to fuel new product development

Next Steps

- 2022** Additional product reveal; establishment of U.S. production lines
- 2023** Production and commercialization
- 2025** B2C offerings
